EDUCATION

Emory University

Bachelor of Arts in Computer Science and Economics, GPA: 3.2

Atlanta, Georgia

Aug 2023 - May 2026

John Cabot University

Study Abroad - Economics

Rome, Italy

Jan 2025 – May 2025

Awards & Commendations

Marshall Wace Scholarship for Academic Excellence

SKILLS

Programming: Java, Python, C, SQL, JavaScript, TypeScript, HTML

Artificial Intelligence: Agentic AI, Prompt Engineering, Large Language Models, Retrieval-Augmented Generation

UX Research & Design: User Interviews, Usability Testing, Wireframing (Balsamiq, Figma), Iterative Prototyping

Tools: AWS, Tableau, Jira, Confluence, Microsoft Office

Languages: Korean (Beginner), Italian (Beginner)

WORK EXPERIENCE

Lockheed Martin, Enterprise Operations

Remote

College Student Tech Intern Missile and Fire Control Data Analytics Team

May 2024 - Aug 2024

- Optimized Lockheed Martin's 1LMX transformation initiative by reviewing and integrating over 1,000 lines of data records into Confluence, improving data governance and accessibility across business areas.
- Developed Python scripts to extract and clean data on printed circuit boards using Python and AWS, identifying anomalies and improving the accuracy of over 1,000 lines of operational data used in engineering reports.
- Facilitated bi-weekly Jira meetings to track progress, review product backlogs, and promote cross-functional collaboration in support of 1LMX objectives.
- Collaborated on the development of a custom Excel macro that generated a duplicate sheet showing document changes, improving version tracking and workflow efficiency by 50%.

Lishawn's Consulting LLC.

Remote

Policy Intern

Feb 2025 - Apr 2025

- Drafted and submitted three tailored Requests for Proposals (RFPs) to prospective clients, securing one accepted proposal that expanded the firm's client base.
- Conducted outreach to nonprofit organizations to assess operational needs and pitch consulting services, building a pipeline of new business opportunities and strengthening client relationships.
- Assisted the marketing team to design social media graphics and content, strengthening the firm's digital presence and driving business development.

RESEARCH EXPERIENCE

Glucose-Machine Learning Lab, Supervised by Dr. Prioleau

Atlanta, Georgia

Co-Author, Undergraduate Research Assistant

Dec 2025 - May 2026

- Collaborated on the development of an interactive web interface using Typescript and React.js that consolidates over 20 continuous glucose datasets spanning 4,400+ participants and 44.9M samples, enabling researchers to explore, visualize, and compare data.
- Designed interactive dataset profiles with demographic breakdowns and time-in-glucose-range visualizations, eliminating manual parsing of dataset documentation across 6 countries.

Designing Technology for the Underserved Lab, Supervised by Dr. Rankin

Atlanta, Georgia

Undergraduate Research Assistant

Jan 2026 - May 2026

- Conducted qualitative data analysis on transcripts and artifacts from 9 workshop participants using the Sort and Sift, Think and Shift method to identify themes related to Black women's computing identity, belonging, and computing confidence.
- Synthesized thematic findings on how makerspaces prepare Black women for the world of computing, shaping how these spaces can better support their growth in tech.

LEADERSHIP & ACTIVITIES

National Society for Black Engineers, Senator

Jan 2024 - May 2026

- Represent member interests at public events and national/regional meetings and vote on key decisions on behalf of the Emory University's NSBE chapter.

Girls Who Code, Volunteer

Sep 2025 - Dec 2025

- Assisted in instructing foundational coding concepts to elementary and middle school children.
